FLOCK NO 1445

SEMEN SIRES

Wiringa Park 'HARLEY' 230009 (ET)

Sire: Poll Boonoke 612
Mic 19.3, SD 2.9, CV 14.8, CF 99.4%, BWT 118kg

ET bred son of PB 160612, an outstanding young ram with stud sire potential. He has tremendous barrel, bone and structure with plenty of meat below his tail. He stands on short pasterns and has a pure silky masculine head. WP 230009 has outstanding wool quality, his fleece is deeply crimped and well aligned with good staple length and density. He will be retained as a semen sire at Wiringa Park.

Wiringa Park 230198 (PP) (AI)

Sire: Lachlan Merinos 928
Mic 20.8, SD 3.4, CV 16.5, CF 99%, BWT 112kg

A really exciting young ram by LM 210928. The complete package, he's a double copy Poll with exceptional wool quality and structure. His wool oozes luster, nourishment, whiteness and density, great staple length coupled with a deeply crimped, well aligned medium wool. WP 230198 has a beautiful finish yet is uncomplicated. He is structurally very correct, standing square behind and has great width through his body. He is a deep bodied ram with a good top line. His silky soft muzzle is reflected through his loose pliable skin. Top shelf young stud sire prospect and will be retained as a semen sire at Wiringa Park.
